Profile

- I am a passionate web developer having good set of knowledge and skills in my domain with proper interest in forming new things with new interactive ideas with creative thinking and designing.

Education

Charotar University Of Science And Technology (CHARUSAT),India   **2021 - 2025**
- Information Technology | CGPA: **9.12**

Shree M.L Sheth Higher Secondary Eng. Medium School, India   **2019 - 2021**
- GSHEB (Class XII), **86%**

Skills

Programming	C	C++	Java	Python	JavaScript
Frameworks	ReactJS, ExpressJS, CSS, Bootstrap, MongoDB,
Tools	Git, Docker
Platforms	GitHub

Work Experience

Miracle Technolabs | Intern   **May'23 - Jun'23**
- Learned JavaScript and JavaScript-related frameworks including React, enhancing proficiency in frontend development.
- Created "NewSAPI" project with ReactJS, demonstrating skill in building dynamic web apps. Used React for Fetch APIproject, showcasing ability to work with data in React.

Projects

Homemakers (2024):
- Developed a website using React.js, MongoDB, Express.js, and Node.js, enabling seamless access to six home services:Plumbing, Electrician, Security-Guard, Movers and Packers, Painting, and Carpenter.

Doctor Appointment System (2024):
- Utilized ReactJs, NodeJs, ExpressJs, and MongoDB to create a system allowing doctors to apply and administrators tomanage approvals, with intuitive patient features for streamlined appointment scheduling and real-time availability checks, deployed on Render.

Food Delivery App (2023):
- Created an app allowing users to browse cuisines, place orders, and make secure payments, built with React.js Express.js, and MongoDB for a seamless ordering experience.

Talk-A-Tive (Chat-Application) (2023):
- Developed a MERN ChatApp with real-time messaging capabilities, enhancing cross-platform communication using MongoDB, Express.js, React.js, and Node.js.

Medical Chatbot (2022):
- Built and deployed a medical chatbot on Telegram using Dialog-Flow on Google Cloud, providing instant access to medical information and assistance through streamlined conversational interactions.

Certificates

Docker Training Certificate	**2024**
Operating System Fundamentals, NPTEL	**2023**
AWS Certified Cloud Quest Practitioner, AWS	**2023**
Data Base Management System, NPTEL	**2022**

Achievements

- Leetcode - 214 Problems
- Codechef - Highest Rating 1471
